

Year 4 Autumn 1 Homework Project

JOURNEY

We would like to invite you to create a project about one of our topics from this half term and bring it into school on **Monday 23rd October** to show your classmates!

You could create a PowerPoint presentation, an interactive poster, a 3D model or even a comic strip! It is completely your choice how you decide to present your learning. Please note, if you decide to create a PowerPoint presentation, this will need to be emailed in advance to the school enquiry email address:

enquiry@boldmere.bham.sch.uk

This half term, our topic is called **Journey**. Some of the things we are learning about are:

- The UK and Europe, including reading maps and learning about famous places and landmarks
- The digestive system, organs in the system and how food travels through our body
- Teeth of humans and different animals
- Stephen Wiltshire line drawing art – drawing famous landmarks
- Podkin One-Ear and his journey
- E-Safety and how to keep safe online

Some ideas:

- Explain how food travels through your body and the role of each organ.
- Create a non-chronological report on animals' diets.
- Make a model of your teeth or the teeth of different animals!
- Create a PowerPoint presentation all about famous places in Europe.
- Create your own artwork using Stephen Wiltshire's art as inspiration (views from an aeroplane).
- Create an informative poster about different places in Europe.
- Create an information poster with tips for how to keep safe online.
- An information poster on the musical instrument you and your class are learning!
