

Photography and filming policy statement

Federation of Boldmere Schools

January 2022

Version:	January 2022
Ratified by the Governing Body:	March 2022
Signed by the Governing Body:	Chair: Mr. Greg Bloom
To be reviewed:	September 2024

The purpose and scope of this policy statement: Boldmere School works with children and families as part of its activities.

The purpose of this policy statement is to:

- protect children and young people who take part in Boldmere School's services, events and activities, specifically those where photographs and videos may be taken
- set out the overarching principles that guide our approach to photographs/videos being taken of children and young people during our events and activities
- to ensure that we operate in line with our values and within the law when creating, using and sharing images of children and young people.

This policy statement applies to all staff, volunteers and other adults associated with Boldmere Schools.

Legal framework:

This policy has been drawn up on the basis of legislation, policy and guidance that seeks to protect children in England.

We believe that:

- children and young people should never experience abuse of any kind
- we have a responsibility to promote the welfare of all children and young people and to take, share and use images of children safely.

We recognise that:

- sharing photographs and films of our activities can help us celebrate the successes and achievements of our children and young people, provide a record of our activities and raise awareness of our organisation
- the welfare of the children and young people taking part in our activities is paramount

- children, their parents and carers have a right to decide whether their images are taken and how these may be used, regardless of age, disability, gender reassignment, race, religion or belief, sex or sexual orientation
- consent to take images of children is only meaningful when children, their parents and carers understand how the images will be used and stored, and are fully aware of the potential risks associated with the use and distribution of these images
- there are potential risks associated with sharing images of children online. Find out more on NSPCC Learning Example photography and filming policy statement

We will seek to keep children and young people safe by:

- always asking for written consent from a child and their parents or carers before taking and using a child's image at the point of entry to the school
- always explaining what images will be used for, how they will be stored and what potential risks are associated with sharing images of children
- making it clear that if a child or their family withdraw consent for an image to be shared, it may not be possible to delete images that have already been shared or published
- only using first names of children whose images are being used in our published material whenever possible
- never publishing personal information about individual children and disguising any identifying information without consent
- making sure children, their parents and carers understand how images of children will be securely stored and for how long (including how we will control access to the images and their associated information)
- reducing the risk of images being copied and used inappropriately by:
 - only using images of children in appropriate clothing (including safety wear if necessary)
 - avoiding full face and body shots of children taking part in activities such as swimming where there may be a heightened risk of images being misused
 - using images that positively reflect young people's involvement in the activity.

We will also develop a procedure for reporting the abuse or misuse of images of children as part of our child protection procedures. These could include contacting parents directly where breaches of this policy are made and the withdrawal of permissions related to the use of photography / filming for personal use. We will ensure everyone involved in our organisation knows the procedures to follow to keep children safe.

Photography and/or filming for personal use

When children themselves, parents, carers or spectators are taking photographs or filming at our events and the images are for personal use, we will share details of our photography policy before the start of the event.

This includes:

- asking for photos/videos taken during the event not to be shared on social media
- recommending that people check the privacy settings of their social media account to understand who else will be able to view any images they share
- reminding children, parents and carers who they can talk to if they have any concerns about images being shared.

Photography and/or filming for wider use

If people such as local journalists, professional photographers or students wish to record one of our events and share the images professionally or in the wider world, they should seek permission in advance.

They should provide:

- the name and address of the person using the camera
- the names of children they wish to take images of (if possible)
- the reason for taking the images and/or what the images will be used for
- a signed declaration that the information provided is valid and that the images will only be used for the reasons given. Boldmere School will verify these details and decide whether to grant permission for photographs/films to be taken. We will seek consent from the children who are the intended subjects of the images and their parents and inform the photographer of anyone who does not give consent. At the event we will inform children, parents and carers that an external photographer is present and ensure the photographer is easily identifiable, for example by issuing them with a school visitor lanyard. If Boldmere School is concerned that someone unknown to us is using their sessions for photography or filming purposes, we will ask them to leave and (depending on the nature of the concerns) follow our child protection procedures.

If children, parents and/or carers do not consent to photographs being taken, we will respect their wishes. We will agree in advance how they would like to be identified so the photographer knows not to take pictures of them, and ensure this is done in a way that does not single out the child or make them feel isolated. We will never exclude a child from an activity because we do not have consent to take their photograph.

Storing images

We will store photographs and videos of children securely, in accordance with our safeguarding policy and data protection law. We will keep hard copies of images in a locked drawer and electronic images in a protected folder with restricted access. Images will be stored for a period of five years before they are updated. We will never store images of children on unencrypted portable equipment such as laptops, memory sticks and mobile phones. Boldmere School does not permit staff and volunteers to using any personal equipment to take photos and recordings of children. Only cameras or devices belonging to Boldmere School should be used.

Related policies and procedures

This policy statement should be read alongside our organisational policies and procedures, including:

- Safeguarding and child protection policy and procedures.
- Code of conduct for staff and volunteers.
- Online safety policy and procedures for responding to concerns about online abuse.
