

## Year 3 Spring 2 Homework Project

We would like to invite you to create a project about one of our topics from this half term and bring it into school on **Monday 18th March** to show your classmates!

You could create a PowerPoint presentation, an interactive poster, a 3D model or even a comic strip! It is completely your choice how you decide to present your learning. Please note, if you decide to create a PowerPoint presentation, this will need to be emailed in advance or alternatively, you could save it to a USB stick and bring this into school.

This half term, our topic is called '**Tomb Raiders.**' Some of the things we are learning about are:

- Ancient Egyptians in History
- Sculptures in Art
- Forces and Magnets in Science
- Branching Databases in Computing
- Our class novel, 'Toto the Ninja Cat and the Great Snake Escape'
- Our additional texts 'The Legends of Tutankhamun' and 'A Midsummer Night's Dream'
- 'Healthy Me' in PSHE

Some ideas:

- Design and create your own sculpture using your art skills.
- Find out about Ancient Egyptians and present your research.
- Create a poster about 'forces and magnets' (Science) or how to stay healthy (PSHE). Include what we have learnt about in school.
- Complete a book review on one of our core texts for this half term.
